With over 30 years of experience in the industrial sector, NS Metal Fabrication Specialist has taken a highly personalized approach to the customization and supply of high-quality metal and steel. We have developed our reputation over the years and seek to foster close relationships with our respectable clients, catering to their specific preferences with an array of cutting-edge capabilities.

We started our journey from humble beginnings, so we understand the importance of loyalty, perseverance and dedication in everything we're involved in. Let us help you achieve your metal and steel vision.

# Tailor to Your Design Needs

We strive towards perfection, fulfilling your design requirements down to the last minor detail. We know exactly what you need, by evaluating and personalizing every aspect of your needs to empower you with products that are effective yet concise. We go that extra mile in delivering the necessary resources with unwavering flexibility and dedication.

# Trading in Coil

## Hot Rolled

Coil Width: 1,219mm  
Thickness: 2.0mm - 4.0mm

## Cold Rolled

Coil Width: 1,219mm  
Thickness: 0.4mm - 2.0mm

## Galvanised Iron

Coil Width: 914mm, 1,219mm  
Thickness: 0.18mm - 3.0mm

## Zincalume

Coil Width: 914mm, 1,219mm  
Thickness: 0.25mm - 1.2mm

## Color Steel

Coil Width: 914mm, 1,219mm  
Thickness: 0.2mm - 0.5mm

## Electro Galvanised

Coil Width: 914mm, 1,219mm  
Thickness: 0.4mm - 2.0mm

## Galvanneal

Coil Width: 914mm, 1,219mm  
Thickness: 0.4mm - 2.0mm

# Precision Fibre Laser Cutting

Every project is unique, which is why we have invested in only the best quality. Fiber lasers are a first choice in diverse applications for precision cutting, armed with the capabilities to create.

Unlimited Design Freedom

Eliminate Prototype Costs

Fast Delivery

Increase Productivity

#### Max. material thickness:

Hot Rolled, Cold Rolled Steel	12mm
Stainless steel	5mm
Aluminum	3mm

#### Material Panel Size:

5ft x 10ft

# Shearing & Cutting

We cut to the chase when it comes to getting your product right, which is why NS Metal Fabrication Specialist utilizes high quality, high production metal shearing machinery that is a cut above the competition. Rest assured your sheet metal and plate cutting requirements will be met.

#### Shearing machine:

Max. weight per coil 10mts  
Thickness max 2mm  
Unlimited length

#### Cutting machine:

max length 4m length  
Thickness max 6mm

Shearing / Cutting

Bending

Welding

# Bending

Sometimes, you just need a heavy dosage of brute strength to overcome a challenging design. Fortunately, our specialties include overwhelming power. Our bending machinery can withstand up to 125mt of maximum tonnage and bend up to 4m of solid metal or steel.

Length: Up to 4m  
Tonnage: Max. 125mt

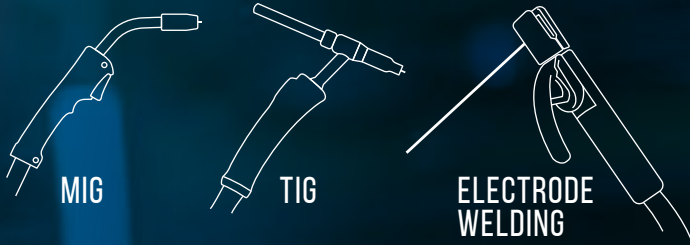

Bending

Welding

# Welding

Cohesiveness is an integral part of any flawless product, which is why we deliver on a comprehensive array of welding specifications. Bring your vision into complete union and achieve a finished product that's as strong as it is aesthetic.

# Steel of your choice

It goes without saying that the attributes of materials are based on the purpose of their application. We know that it can be difficult to decide on the vast array of steel choices out there, which is why we're committed to guiding you through the process and providing you with only the best.
